SUBJECT: Request for Changes to Disk DDA 114

1. The subject VM disk space has been used to create and maintain our documentation of Agency data bases. Because of our desire to share this information with other appropriate organizations, it will be necessary at times to internally copy and manipulate most files within it and provide external access. Therefore, we are requesting that the following be done:

- Increase the size of this space to 12 cylinders vice the current 6
- Issue a Read Only password to us for this disk

2. Please contact me if you have any questions concerning this matter.
